## About Us

We are the leading technology and engineering company in Myanmar providing innovative solutions and services contributing to the sustainable development of the country of Myanmar.

Mandalay Technology (previously known as Myanmar Credent Technology) started incorporating the company in 1998, providing geospatial technological solutions and services including Surveying, GIS/ Mapping, Remote Sensing, geotechnical investigation, hydrological and marine survey, and now extended to science, technology and engineering education solutions, oil and gas solutions and services and building and engineering services.

Civil Engineers, Electronic Engineers, Mechanical Engineers, Geologists, GIS/Mapping and Remote Sensing Application Engineers, Surveyors, Hydrologists, CAD Specialists, IT professionals and Hardware Support Engineers are staffing Mandalay Technology, providing full service for the customers in Myanmar.

## Business Divisions

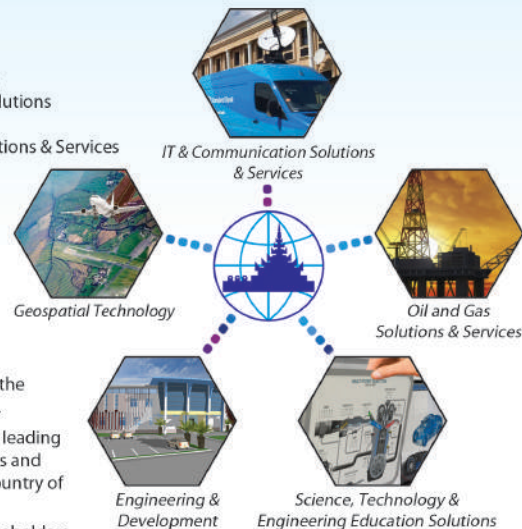

1. Geospatial Technology Solutions and Services
2. Engineering and Development Solutions & Services
3. Science, Technology and Engineering Education Solutions
4. Oil and Gas Solutions and Services
5. Information Technology and Communications Solutions & Services

## Our Vision

To contribute to the sustainable development of the country of Myanmar by the energetic and capable people with the innovative solutions and services.

## Our Missions

1. Capacity Building of the People in the Company, in the Industries we serve, and in the country of Myanmar.
2. Collaboration and working together with the world leading technology and engineering institutions, companies and organizations to fulfil the technology gaps of the country of Myanmar for its fullest development.
3. Engage, Partner and Work together with all the stakeholders in the government, private sector, local and international communities.

## Corporate Social Responsibility

While technology is the main business, it is also aware that the human capital and innovation are the driving forces for the sustainable development. That is why its core values are People, Innovation and Sustainability. Corporate Social Responsibility (CSR) is at the heart of these core values. We have the CSR task force in the company, formed with 5 rotating members, who contribute voluntarily, and re-formed quarterly. Apart from such community-based CSR activities, we have internship program which aims to help the university students and fresh graduates for the practical hands-on working experience in various work positions in the company, providing them a stipend, as well.

As a part of our CSR spirit, we contribute to the human resource development and capacity building in the business.

We received Gold Award (CSR Category) of ASEAN ICT Award in 2012.

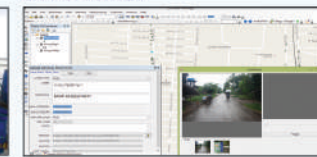

Asia Science Camp (2014) at NANYANG Technological University Singapore
