*Technologies for Development*

PEOPLE

INNOVATION

SUSTAINABILITY

## The Company

**Mandalay Technology** is the leading technology and engineering company in Myanmar with energetic and capable **people** providing **innovative solutions and services** contributing to the **sustainable development** of the country of Myanmar.

### Our Core Values

**People**  
**Innovation**  
**Sustainability**

### Our Motto

*“Technologies for Development”*

### Our Solutions and Services

- Geospatial Solutions and Services
  - GIS/ Mapping
  - Remote Sensing
  - Topographic Surveying
  - Geotechnical Investigation
  - Hydrological and Marine Survey
- IT & Communication Solutions and Services
- Science, Technology and Engineering Education Solutions
- Oil & Gas Solutions & Services
- Engineering and Development

We are **energetic** and **innovative** professionals with various backgrounds;

- GIS / Remote Sensing Professionals
- IT and Communication Specialists
- Project Managers
- Geologists
- Returnees
- Ex-Government Officials
- Development Specialists
- Entrepreneurs/ Intra-preneurs
- Accounting and Finance Specialists
- Engineers and Architects

# Leader in GeoSpatial Industry

## Geospatial Solutions and Services

- GIS Solutions and Services
- Remote Sensing Applications
- Surveying/ Mapping
- Geotechnical Investigation
- Hydrological and Marine Survey

## Our Geospatial Technology Partners

Aerial  
Photography

Satellite Image  
processing

Field Survey

Hydrographic  
Survey

GeoTechnical  
Survey

River GIS

Transportation GIS

Health GIS

Schools GIS

Irrigation GIS

Flood Risk Mapping

Archaeological GIS

Rice Yield Forecasting

Forestry GIS

Earthquake Mapping

We work with multi-stakeholders to  
bring about the positive changes  
using the geospatial technologies.

Web-GIS Seminar  
and Workshop.

GIS Seminar and Workshop.  
At Yangon University

PEOPLE

INNOVATION

SUSTAINABILITY

# Leader in GeoSpatial Industry

River Changes Analysis and Mapping

Marine Survey (Hydro, GeoTech, Meteorological)

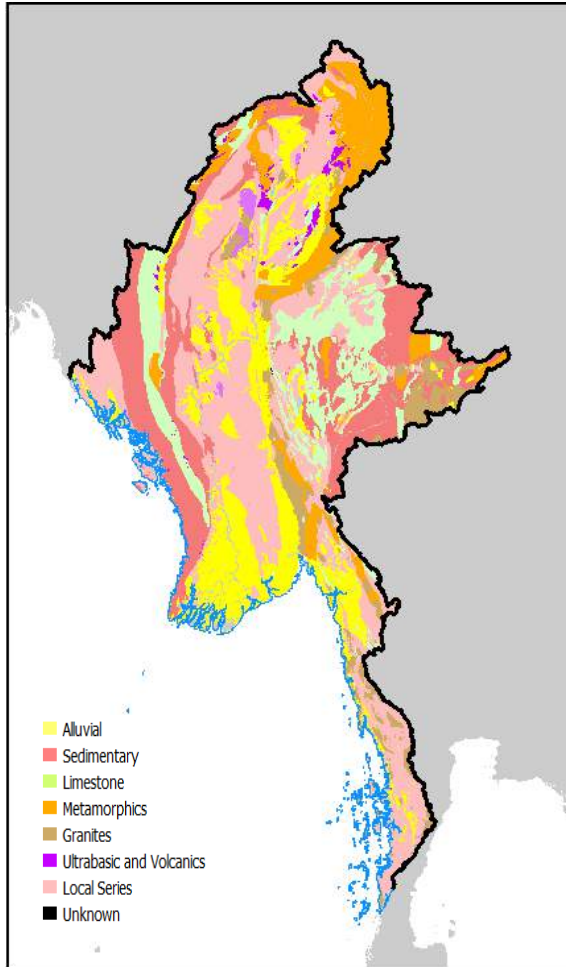

Irrigation GIS & Mapping

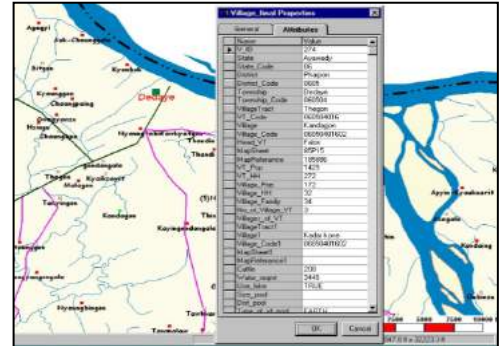

Aeronautical GIS & Mapping

Hydrographic Charting

- Alluvial
- Sedimentary
- Limestone
- Metamorphics
- Granites
- Ultrabasic and Volcanics
- Local Series
- Unknown

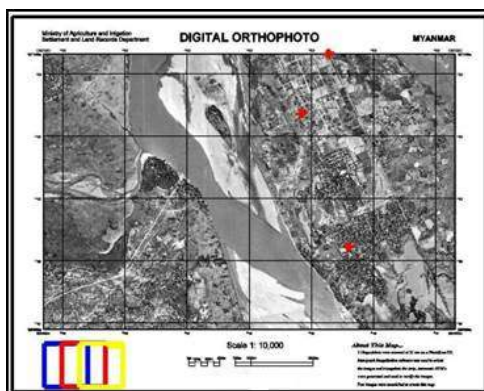

Myanmar GIS (Roads, Railways, Rivers, States, Divisions, Cities, Towns, Villages, Boundaries,...)

POI names and addresses of the whole Myanmar for web and GPS navigation

Aerial Photography

Digital Photogrammetry, Satellite Image Processing, DEM, DTM, Route Selection for Roads and Railways

PEOPLE

INNOVATION

SUSTAINABILITY

# Leader in GeoSpatial Industry

## CAPACITY BUILDING FOR NATION BUILDING

We believe that Capacity Building is the crucial element of the sustainable development of the country of Myanmar. We develop our people in the company, in the industry and in the country. Trainings, seminars, workshops are part of our capacity building initiatives.

GIS Training Courses at Yangon and Mandalay Universities

**GIS and Remote Sensing Technologies for Disaster Risk Reduction**  
(သဘာဝဘေးအန္တရာယ်ဆိုင်ရာအန္တရာယ် လျှော့ချရေးအတွက် GIS နှင့် Remote Sensing နည်းပညာသင်တန်း)

သဘာဝဘေးအန္တရာယ်အန္တရာယ်များ သဘာဝဘေးအန္တရာယ်ဖြစ်ပေါ်စေသည့်အတွက် ကျွန်ုပ်တို့သည် သဘာဝဘေးအန္တရာယ်လျှော့ချရေးအတွက် အသုံးပြုနိုင်သည့် GIS နှင့် Remote Sensing နည်းပညာများကို သင်တန်းများ ပို့ချပေးခဲ့ပါသည်။ သဘာဝဘေးအန္တရာယ်လျှော့ချရေးအတွက် အသုံးပြုနိုင်သည့် GIS နှင့် Remote Sensing နည်းပညာများကို သင်တန်းများ ပို့ချပေးခဲ့ပါသည်။

- GIS Database of Elements for Disaster Risk Reduction
- GIS and Remote Sensing Application for Disaster Risk Reduction
- Disaster Monitoring and Management using Remote Sensing and GIS

**20% OFF**  
အသုံးပြုနိုင်သည့် အခွင့်အလမ်း

**MANDALAY UNIVERSITY**  
Training in Myanmar

အသုံးပြုနိုင်သည့် အခွင့်အလမ်း  
အသုံးပြုနိုင်သည့် အခွင့်အလမ်း

GIS Training at YCDC

We received ASEAN ICT Award, Gold Award (CSR Category) for our geospatial technology training programs for environmental management, disaster management and disaster preparedness.

We are building the country of Myanmar.  
**We are part of Sustainable Development of the Country.**  
We are the technology leaders building the nation.
